To Whom It May Concern:

Dear Sir/ Madam,

As an Instructor at Faculty of Informatics, department of computer science, in Admas University, Ethiopia, It is my sincere pleasure to write this recommendation letter to **Mr. Daniel Gelan**. I have had the chance of knowing Mr. Daniel for over three years as undergraduate student in the department of computer science. I have been his lecturer for many courses and Examiner in his B.Sc. project work entitled "License Identification and Traffic Management System".

I observed him very close and found him to be truthful, highly motivated, capable and hardworking person with a sound background who takes responsibilities seriously. He impressed me a lot with his dedication, commitment, enthusiasm while caring out assignment and project works. His conduct and character have been excellent throughout my contact period. His English language comprehension ability is appreciable.

In Group work and class presentation he shows his willingness to share his ideas and knowledge with colleagues and capitalize on opportunities to learn from others. In addition to that he was a class representative for the whole class during his stay in the university.

All in all, if **Mr. Daniel Gelan** gets the opportunity to join the **position in your organization or institution**, I am confident that he is capable enough to accomplish his assigned responsibility with great success and passion.

If I can provide additional information to support Mr. Daniel Gelan application for a position in your organization or institution, please contact me with the below address.

Sincerely,

The Vision of Admas University

Admas University envisions being the most reputable Private Higher Education Institution in terms of outstanding quality Education, Research, Training, and Community Development services in East Africa by 2020.

To Whom It May Concern

This reference letter is provided at the request of **Daniel Gelan Dunfa** who has asked me to serve as a reference on his behalf. I have known **Daniel** for the past three years, as he has taken the following courses that I teach: [software engineering, Software project managment]

I was initially impressed with **Daniel's** skills when I met him in **Software Engineering** under my instruction. He took charge of the class project and served as an excellent example to his fellow classmates during the class. Daniel is a highly motivated individual who always puts forth his best effort in all assigned tasks. His enthusiasm for the field of **Computer Science** is remarkable. Recently, his passion for the field was further demonstrated in my capstone class as he related practical skills developed from his internship to theoretical knowledge obtained from the classroom.

I also had the opportunity to serve as **Daniel's** academic advisor for the past two semesters for the final year project years. I have witnessed **Daniel** take advantage of opportunities both in the classroom and through extracurricular activities offered by the university. In conclusion, if his performance in my class and project work is any indication of how he had performed in your organization, **Daniel** would be a spectacular addition to your staff.

Sincerely,

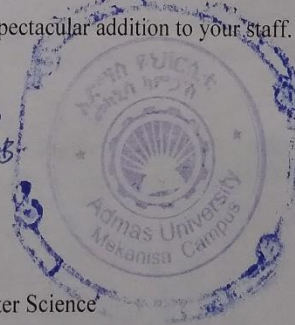

Haftom Berhe (Msc.)
